PROFESSIONAL SUMMARY

Python Backend Developer with hands-on experience building scalable web applications using Python, Django, RESTful APIs, and relational databases. Proven track record of optimizing application performance by 30%, implementing secure authentication systems, and deploying production-ready solutions. Completed Python Developer Internship delivering backend modules for 1,000+ users. Proficient in Docker containerization, Agile methodologies, and CI/CD workflows. Seeking Backend Developer, Django Developer, or Software Engineer role to architect robust, highperformance web applications.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript
Backend Frameworks: Django, Django ORM, FastAPI (Familiar)
Frontend Technologies: HTML5, CSS3, Bootstrap, JavaScript
Database Technologies: MySQL, PostgreSQL, SQLite
Web Development: RESTful APIs, CRUD Operations, Authentication & Authorization
DevOps & Tools: Git, GitHub, Render, Postman
Core Concepts: Object-Oriented Programming (OOP), MVT
Architecture, Data Structures & Algorithms, Database Design & Optimization
Other Skills: API Integration, Unit Testing (PyTest), Debugging, Performance Optimization, Agile/Scrum, Excel, Team Coordination, Documentation

INTERNSHIP EXPERIENCE

Python Developer Intern | The Skybrisk

Dec 2025 – Feb 2026

- Developed backend modules using Python and Django
- Built RESTful APIs and implemented JWT authentication
- Designed and optimized MySQL database queries
- Implemented CRUD operations and backend validation

- Collaborated using Git and GitHub
-

PROJECTS

Hospital Clinic Appointment Management System

Live Project: hospital-appointment-mcp2.onrender.com |

Tech Stack: Django, MySQL, Bootstrap, Render

- Built appointment booking and slot management system
- Implemented role-based authentication for doctors and patients
- Deployed the application on Render
- Implemented appointment lifecycle management

E-Kart: Full Stack E-Commerce Web Application

Tech Stack: Django, MySQL, JavaScript, Bootstrap

- Developed RESTful APIs for cart/orders using Django MVT, supporting 1K+ products
 - Optimized queries cutting page load by 30%; integrated Bootstrap frontend
-

EDUCATION

Bachelor of Computer Science

St. Joseph's College of Arts & Science (Autonomous), Cuddalore

2022 – 2025

CERTIFICATIONS

- Full Stack Python Development – Code IT99 Academy
- Python Developer Internship – The Skybrisk
- IT Deployments, Business & Technical Support Planning – Udemy
